

## Mobile Mammography Unit

### Offering the convenience of on-site mammograms!

Our Mobile Mammography Unit makes getting a mammogram convenient by going directly to you. This unit can be scheduled for visits to corporate and community partners in the Upstate. Community outreach is vital to Prisma Health's purpose, and we're excited to be the difference for you.

The unit travels to your site and provides state-of-the-art digital mammography screenings. It is staffed with skilled, experienced mammography technologists.

#### Partners must meet these requirements for a mobile mammography event:

- Have at least 15 eligible patients
- Provide a contact on-site (site coordinator) to help with screening logistics
- Schedule a site visit with Prisma Health at least 1 month prior to desired date
- Have a level, paved area that fits the Mobile Mammography Unit's size (42 feet long, 14 feet high, 9 feet wide), which is equal to 10 parking spaces
- Have restrooms near the parking site of the unit
